

Newsletter

Volume 1
January 2025

Welcome to our first NWA Newsletter!

New West Artists was founded over 12 years ago. We are a volunteer run, non-profit society created to support new and experienced artists.

We inspire and encourage members to develop their art through exhibitions, workshops, and events. We serve as a community resource and increase awareness and appreciation of art by connecting with our community.

In addition to our website at newwestartists.com, this newsletter will be published quarterly to provide highlights and announcements.
